Integration Review

ABERTO PARA EDIÇÕES

Hi There!

We're super excited that you've submitted an integration to the Canva platform for review! As part of the review process we'll get you to fill in a quick questionnaire. After that, we will perform a functional review of your integration.

Once you have passed both of those, we'll enable users outside of your Canva brand to authorise your integration and you'll be able to release it to users.

If you have any questions along the way please ask, we'd love to help you through and succeed.

Developer Overview

Company or developer name *

The name of the company who owns this app. Or your name if there is no company.

Danilo Novais

Technical contact details *

What is the best way for Canva to get in touch with you for technical support?

danilo@portfoliodanillo.com

User contact details *

What is the best way for Canva users to get in touch with you for general integration support?

danilo@portfoliodanillo.com

Terms of Service *

A link to your terms of service URL

<https://portfoliodanilo.com/terms-and-conditions>

Privacy Policy *

A link to your terms of privacy policy URL

<https://portfoliodanilo.com/privacy-policy>

Integration overview

We'd love to get a better understanding of your integration, what it does, who it's for, and how it works. Ensuring you provide enough details to allow us to functionally test the integration will help speed up the review process.

Integration overview *

A short description (~100 words) of your integration and the benefit to customers

Texto normal ▾ | **B** *I* ... | ≡ ▾ | A ▾ | := ½= | 🔗 </> ⓘ 99 — ☰

PPT-CREATOR e o benefício para os clientes

Integration functionality *

An overview of the different functionality that your integration with Canva has (e.g. creates designs from content in your platform, adds folders to the users Canva account).

Texto normal ▾ | **B** *I* ... | ≡ ▾ | A ▾ | := ½= | 🔗 </> ⓘ 99 — ≡

Integration testing *

Please provide details steps on how to test your integration. If your app requires an account or paid subscription, please provide test account details for us using the email "integrations-support@canva.com". Ideally, this test account will have demo data and be ready for us to perform a functional test of your integration If an account is not necessary you can leave this blank.

Texto normal ▾ | **B** *I* ... | ≡ ▾ | A ▾ | := ½= | 🔗 </> ⓘ 99 — ≡

Step1: Log into [URL] with the following details : [U/P]/ ...

Scope rationale

The scopes requested for your integration must be the minimum necessary for it to function. In the below table, please provide a reason why you are requesting each OAuth scope.

Please write a short rationale for why your integration requires the scopes you have selected (leave unused scopes as "n/a"):

design:content read

n/a

design:content write

n/a

design:meta read

n/a

design:permission read

n/a

design:permission write

n/a

folder read

n/a

folder write

n/a

folder:permission read

n/a

folder:permission write

n/a

asset read

n/a

asset write

n/a

comment read

n/a

comment write

n/a

brandtemplate:meta read

n/a

brandtemplate:meta write

n/a

Security practices

At Canva, we take the security of user data very seriously. In the fields below please outline your security practices and complete the questions.

Data retention policy *

What is your retention policy for Customer data?

Data archival/removal policy *

When and why do you remove customer Data?

Data storage policy *

How do you store customer data?

How do you host your data? *

How is your data hosted? (e..g cloud, on premise)

Date of last pen test

When was your last pen test? (leave blank if you have not had one)

por exemplo:
14/06/2026

**How can users contact you with security issues? ***

How can users contact you if they have a security issue/concern?

Normal traffic levels

How many requests per second are you expecting on average and at peak (eg P99)

Does your integration respect [Canva APIs and developers terms and conditions](#)?

Please select an answer below *

- ☐ Yes
- ☐ No

Have you reviewed your integration to check it isn't vulnerable to the [OWASP top 10](#)

Please select an answer below *

- ☐ Yes
- ☐ No

Does your integration revoke OAuth access & refresh tokens and delete any personal data within 30 days of them uninstalling/disconnecting?

Please select an answer below *

- ☐ Yes
- ☐ No

Does your integration use encryption at rest to store client secrets on a secure backend?

Please select an answer below *

- ☐ Yes
- ☐ No

Does your service support SSO?

Please select an answer below *

- ☐ Yes
- ☐ No

Does your service support SAML?

Please select an answer below *

- ☐ Yes

☐ No

Do you have a dedicated security team?

Please select an answer below *

☐ Yes

☐ No

Do you have a vulnerability disclosure or bug bounty programme?

Please select an answer below *

☐ Yes

☐ No

Are any third-party connections required for your app to function?

Please select an answer below *

☐ Yes

☐ No

Do you own the domain of redirect and webhook URLs?

Please select an answer below *

☐ Yes

☐ No

Does your integration verify the signature of webhook events?

Please select an answer below *

☐ Yes

☐ No

Automation for Jira 04/jun/26 9:54 AM

Hello Danilo Novais,

Thank you for developing an integration with Canva Connect API. Important: The integration review is only required AFTER you've completed development and internal testing. If you're experiencing authentication issues, it's not because your integration is in "Draft" state. Please cancel your submission and continue troubleshooting, or raise a support ticket if you need assistance.

While in "Draft" state, you can develop and test internally. Once development is complete, submit for review.

Before your integration can go public, it must pass our review process. We'll ask about your integration's nature, hosting environment, and required scopes, plus need details on how we can test it.

Please complete the questionnaire at: <https://canva-external.atlassian.net/servicedesk/customer/portal/2/APPS-46302>

After reviewing your responses, we'll move to "Functional Review" to test functionality and security. Questions? Reply to this email or comment on the ticket—we'll respond as soon as we're able."

Kind Regards,

Canva
